

Congress of the United States
Washington, DC 20515

April 5, 2013

The Honorable Barack H. Obama
President of the United States of America
The White House
1600 Pennsylvania Avenue NW
Washington, DC 20500

Dear President Obama:

We are writing to express our strong opposition to your continued support of a \$100 per flight fee on commercial and general aviation.

Aviation user fees have been proposed in your last two budgets and Congress rejected them. Aviation user fees have been proposed by different Administrations, both Republican and Democrat and again, Congress has repeatedly and overwhelmingly rejected them.

Commercial and general aviation, including aviation manufacturing, are vital industries in our nation, providing millions of jobs and making important contributions to our economy. We should work together to support policies that encourage job growth and strengthen U.S. economic activity. Imposing a \$100 per flight fee on commercial and general aviation is the wrong approach, and we respectfully request that you abandon this idea once and for all.

We appreciate your consideration of our strong concerns.

Sincerely,

Frank LoBiondo
Member of Congress
